DeepSearch helps you go from a noisy tweet storm to a consolidated set of primary documents: white papers, token contracts and press releases.

But the second problem with the code-is-law idea is more damning. While the model of regulation suggested here so far has been of a reactive system that arises to fill the need for authority, some political scientists — realists — view it the other way.

Large-scale ETH holders are also taking advantage of the recent pullback. Data showed that BitMine Immersion Technologies, chaired by Tom Lee, accumulated 104,336 ETH worth around \$417 million on Thursday.

A bull trap happens when the price pokes above resistance and then reverses, while a bear trap occurs when the price dips below support and quickly snaps back. These fake breakouts often result from forced liquidations and mean reversion, clearing out crowded positions.
