The product features institutional-grade security protocols, with Coinbase transferring Bitcoin from trading wallets into segregated, offline cold storage by day's end.

The fund was on track to hit \$100 billion in assets under management and become the youngest ETF to cross that milestone, but last week's market crash derailed the timeline.

Watch for spoofs, large bids or asks that vanish on contact, creating the illusion of support or resistance. Spoofing is unlawful in regulated futures markets, and similar patterns have been documented on crypto exchanges. Treat sudden order book shifts with caution.
