Comprehensive Guide to bidr binance

Russia's volumes up almost 50% since last year

Prediction market gurus have plenty on their plate this week, between NFL kickoff and forecasting the next crypto market moves after recent all-time highs.

The impact of the GENIUS Act has been dramatic.

The white paper provides a simple example: "Bob holds 1 BTC and wishes to borrow \$50,000 in a stablecoin from Larry via a lending protocol on Ethereum." This would necessitate that if Bitcoin's price falls under \$50,000, Larry can liquidate the collateral, and if Bob repays the loan on time, he recovers the BTC.

The deal arrives as the crypto industry witnesses “a powerful convergence between digital assets and traditional financial markets,” Raghu Yarlagadda, CEO of FalconX, wrote in a statement shared with Decrypt.

Investors sank about \$477 million and \$142 million into the Bitcoin and Ethereum funds, respectively, last week, according to U.K. asset manager Farside Investors.
