One of the most recent notable plays includes the incubation of a competing layer-1 blockchain, Tempo, in partnership with fintech giant Stripe.

The rise of NFTs (Non-Fungible Tokens) has brought revolutionary changes to digital content creation and trading. Based on blockchain technology, NFTs ensure the uniqueness and immutability of digital assets, solving the problem of digital content being easily copied. NFTs have a very wide range of application scenarios, including digital art, game items, virtual real estate, music works, etc. The rapid development of the NFT market has attracted the participation of many artists, collectors, and investors, and has also provided creators with new monetization channels. Although there are risks of speculation and bubbles in the NFT market,

in the long run, NFTs will inject new vitality into the development of the digital economy.

Haines said the show's protagonist is loosely based on Hayden Davis, the 28-year-old CEO of Kelsier Ventures, who helped First Lady Melania Trump introduce a meme coin and advised Milei on the ill-fated Libra token, which plunged not long after the far-right leader's promotion of it on X.

He believes this outlook bodes well for a sustained rally through the year's end, noting that "historically, October through December are the most active and bullish months for Bitcoin."
