Galaxy Digital reported strong third-quarter earnings, driven primarily by higher trading activity and continued expansion in asset management, signaling steady institutional interest in crypto-focused financial services.

“Further steps” ahead

It currently maintains multiple connections to the sporting world, highlighted by backers like the New York Yankees-owning Steinbrenner family and current and former NHL players including Tyler Seguin, Jason Arnott, and Ales Hemsky.

Together, they account for about a quarter of the country's \$4.3 trillion (US\$2.8 trillion) superannuation pool, according to data released by the Australian Prudential Regulation Authority last week.

In general, both retail and institutional investors continue to focus on buying and holding tokens for price gains rather than staking them. Operating validator nodes requires substantial capital, technical know-how and uninterrupted uptime. It also exposes participants to risks such as slashing penalties and custody challenges. Additionally, in many jurisdictions, the regulatory treatment of staking rewards remains unclear.

The pair's Solana token pumped over 2,000%, and they later thanked the gym bro for slapping them.
