The film uses the human angle to frame a debate that was prevalent at the time. When an attacker takes money from a smart contract, relying on the contract's internal logic to obtain tokens outside of the creator's intention, is that wrong? Should the attacker be censured, legally or otherwise, or is this simply fair play?

Each week features a new "Challenge" centered on a specific theme, such as decentralized finance (DeFi) or gaming. To complete a Challenge, users must finish a series of onchain "Quests," which are individual tasks like swapping a token or minting an NFT on a participating decentralized application (DApp).

While some market observers believe that the traditional crypto four-year cycle is about to be broken, analysts told Decrypt this week that they believe some traders are still following the classic rulebook—and selling due to the expectation of falling prices ahead.

Li Lin, the founder of cryptocurrency exchange Huobi and chair of investment company Avenir Capital, has reportedly raised about \$1 billion as part of a strategy to invest in Ether.

The stablecoin has been criticized by the European Union for being used as a tool for sanction evasion by Russia. The US government has also linked A7A5 to Grinex, the successor of Garantex, which was allegedly involved in money laundering and ransomware attacks with \$100 million in transactions related to illicit activities.
