Code, in this construction, is not necessarily a removal of negative restraint but is instead just another instance of regulation, broadly construed. A restraint, manifested differently, that poses the same questions as any other form of restraint.

He believes this outlook bodes well for a sustained rally through the year's end, noting that "historically, October through December are the most active and bullish months for Bitcoin."

On Tuesday, the agency filed a lawsuit against HTX for promoting crypto services to UK residents, a spokesperson for the FCA confirmed to Cointelegraph. The FCA also said:

Community backlash about potential conflicts of interest was significant enough that Feist and Drake both abandoned the advisor positions.

Cross-border payment is one of the important application scenarios of blockchain technology. The traditional cross-border payment process is complex, involving multiple intermediaries, with long settlement time and high fees. In contrast, cross-border payments based on blockchain technology can realize direct peer-to-peer transactions, greatly simplifying the process, shortening settlement time, and reducing costs. Currently, several countries and financial institutions have begun to try using blockchain technology for cross-border payments. With the continuous maturity of technology and the improvement of regulatory frameworks, blockchain cross-border payments are expected to become the mainstream cross-border payment method in the future.

Price pushes through a well-watched level on weak or average volume, shows little follow-through, and the next candle closes back inside the prior range.
