Bitcoin and other decentralized protocols suffer from a collective action problem, where the communities choose to debate theoretical solutions, rather than implement known workarounds as soon as possible, Carvalho added.

The pair's Solana token pumped over 2,000%, and they later thanked the gym bro for slapping them.

Looking ahead, Liu expects volatility to remain elevated as markets await clearer policy direction. "A more defined macro path or easing US political tension could restore confidence, reviving risk appetite and turning ETF flows back to positive," he said.

In Phoenix, police this week also arrested 18-year-old Kaden Lopez after he allegedly threw a green sex toy into the crowd, hitting a man attending the game with his nine-year-old niece.
