Comprehensive Guide to binance fiat limits

Crypto has already been part of civil unrest and falling confidence in the economy in Kenya.

Back in 2023, when Musk stepped down as CEO of then-Twitter, he jokingly posted that Floki was the new CEO of the company, following the tweet with a series of other posts about Floki. It prompted a 146% spike in Floki's market cap to \$557 million, according to CoinGecko.

Prosecutors said the operation generated more than \$5,800 worth of Ethereum, which Armbrust converted for personal use, while Digital River incurred about \$45,270 in cloud-service costs before the activity was discovered.

The sector continues to grow, with users of prediction market Myriad (launched by Decrypt's parent company Dastan) placing a 55% chance on the market cap of all stablecoins crossing \$360 billion before February 2026.

The financing combined \$15.3 million in cash and stablecoins with \$11.7 million in OBNB Trust units, giving the company indirect ownership of roughly 10,647 BNB. The BNB-linked warrants remain subject to shareholder approval before the tokens can be formally transferred.

“An October rate cut will have markets taking flight, with crypto and ETFs seeing liquidity flow and sharper moves,” Vincent Liu, chief investment officer of the Taiwan-based company Kronos Research, told Cointelegraph.
