“I think it's fair to say Australians have always had a bit of a speculative streak, we're willing to have a go,” Miller told Decrypt.

But how do you choose the right tool for the job? This article takes a look at the top five Ethereum block explorers of 2025, comparing them based on data depth, features and user experience.

A significant share of that exposure comes from Tether, the market leader, which holds roughly \$127 billion worth of Treasury bills.

This surge in activity also served as a real-world stress test for the Algorand blockchain. With tens of thousands of participants generating nearly 300,000 transactions, the network maintained its performance. Users experienced the platform's "low fees, instant transaction finality and zero transaction failures" firsthand.

Once a coin passes the quick screen, the next step is to dig into the data that tells you whether a project has staying power or is just another short-lived pump.

"I don't understand how most cannot see that as soon as gold stalls, BTC is going to rip."
