The shift shows that while investors expect the market to remain contained, they are hedging against the risk of a sudden drop.

Shares of Newsmax, which trade on the New York Stock Exchange with ticker NMAX, dropped around 4% today to \$10.83 as broader markets slid amid increased macro volatility. However, shares are up more than 4% in after-hours trading, according to data from Yahoo Finance.

The Financial Conduct Authority estimates that seven million UK adults now hold crypto, up from around 10% (5 million) in 2022 or 4.4% (2.2 million) in 2021, showing the growing interest.

Many countries previously shifted their debt issuance to short-term maturities, leading to a global increase in long-term government bond yields, Brooks noted in a subsequent tweet, “a move that may be coming back to haunt us.”

A high hash rate is important because it means more computing power is being used to keep the cryptocurrency's network secure. And the more computing power used, the harder it is for attackers to take control of more than 50% of the Bitcoin network.

continues to trade below the crucial \$4,000 threshold, struggling to establish bullish directional momentum following last Friday's flash crash. The altcoin consolidated between its 50-, 100- and 200-day exponential moving averages (EMAs), a technical zone that highlighted the ongoing tug-of-war between short-term and long-term market trends.
