Comprehensive Guide to binance futures stop limit

Stablecoins are a “global macroeconomic force”

The price of Bitcoin soared to a new record high during Asia trading hours on nearly \$50 billion in trading volume over the last 24 hours, per data from CoinGecko. As bullish traders piled in pushing the price upward, almost \$100 million in short positions were liquidated in just one hour, according to CoinGlass. More than \$200 million in BTC shorts were turned into forced buyers in the last 24 hours.

“From cinematic design to surreal architecture and cyberpunk storytelling, the gallery presents a curated selection of today’s most influential digital artists,” the organizers said in a statement.

Admit it or not, software is deployed by developers and used by communities for certain purposes. And when hackers at cross purposes exploit the software to take things from those communities, some of the victims will appeal to the government for help. And sometimes those governments will respond by sending men with guns to restrain the hackers and imprison them.

Retail ETH longs dominate futures market, but carry a contrarian outlook

Asked whether mining operations would simply relocate to more crypto-friendly states, Puckrin said it would be “the obvious answer,” as moving will be easier and cheaper than “trying to comply with punitive regulations, and there are still plenty of much friendlier options within the U.S.”
