The emergence of corporate L1s changes the liquidity map. If Stripe's Tempo gains traction with merchants, you'll see predictable, high-volume flows, which is great for low-risk, yield-capture strategies. The volatility and the asymmetric

opportunities will still be in the permissionless frontier, however, where protocol changes, governance shifts, or market narratives can swing valuations overnight.

"SearchGPT is designed to help users connect with publishers by prominently citing and linking to them in searches," OpenAI said in its announcement.

"Responses have clear, in-line, named attribution and links so users know where information is coming from and can quickly engage with even more results in a sidebar with source links."

When the usage moves beyond consumer transactions into payments infrastructure, institutional use, remittances and treasury operations, different strengths of BTC, ETH and XRP become more visible.
