“To be honest, I don’t think this dump has anything to do with Justin Sun. He barely moved funds to centralized exchanges, and this morning’s transfers were just from one of his addresses to another,” he said. “His latest statement saying he has nothing to do with the dump looks legitimate.”

Coinbase also urged Treasury to issue guidance clearly recognizing API-driven compliance technologies, including outlining acceptable use cases, data privacy requirements, and interoperability standards.

The approval allows Binance to take majority control of GOPAX, restart operations in Korea, honor repayment pledges to users, and position itself to compete with dominant local exchanges.

“I believe some of the sell-off is due to a cohort of market participants stuck to the four-year cycle,” Matthew Nay, a research analyst at Messari, told Decrypt. “If you look at the timing, it's almost exactly four years since we topped last cycle, and when you throw in trade war uncertainty, it allows them to defend their positions more aggressively.”

Uniswap's trading engineering lead, Danny Daniil, said that Solana's launch will help Unichain, a layer-2 network made by Uniswap Labs, become the “best chain” for trading.

mining company by market capitalization, announced a new strategy to expand into AI data center infrastructure, aiming to diversify its revenue streams and strengthen long-term cash flow potential.
