However, this is not all bad news as DATs with strong capital bases and trading-savvy management teams “may still generate meaningful alpha,” they said.

“Creating Tilly has been, for me, an act of imagination and craftsmanship, not unlike drawing a character, writing a role, or shaping a performance,” she said. “She represents experimentation, not substitution.”

The stated objective for the models is to maximize their risk-adjusted returns. The rules emphasize autonomy, requiring each AI to independently generate its trading ideas, size and time its trades, and manage its own risk, with all model outputs and corresponding trades made public for transparency.

The funds will support energy expansion, mining growth, and new high-performance computing projects, with the move building on earlier steps, the company said.

The story follows founder Griff Green's perspective as the early instantiation of decentralized governance rises, raises \$160 million and then, at once, falls victim to a devastating hack.

Haines tapped Sullivan Slentz, who helped create a commercial for a DeFi project that Haines appeared in, as the show's director. Its cast is still being decided, but the two are hopeful that their pilot episode will be finished by February.
