In early July, Mt. Gox wallets began moving Bitcoin as the exchange prepared for creditor repayments under the civil rehabilitation plan. Markets initially feared that recipients would immediately sell. Bitcoin dipped again after Kraken, one of the exchanges handling distributions, announced on July 24 that it had completed its process.

Paradigm's Tempo blockchain is building a network with a curated set of validators, which will essentially be controlled by Stripe, marking a steep departure from Ethereum's decentralized, open-source ethos.

"We have seen that a number of companies have had success with a crypto strategy," the spokesperson said. "A number of our friends and supporters felt we should engage in that area as well. The board decided to start a conservative approach on this and test waters by buying some Bitcoin and Trump coin."

"We must collectively govern the integration of transformative tools like AI, which, powered by the immutable transparency of the blockchain, can finally move AML past the problem of low-value, static data," Fabiano said, calling the evolution "an opportunity, not a constraint" essential to securing a credible, compliant financial ecosystem.

Defiance and other firms already offer a number two times leveraged ETFs that are geared toward short-term investors, asking them to speculate on the one-day direction of certain stocks, many of them in the technology sector.

As lawmakers propose broader financial regulation, industry groups are increasing their policy engagement.
