Comprehensive Guide to binance issues reddit

Even with co-signing meant to curb censorship, the model still assumes enough liquidators (and sometimes large lenders) behave correctly. Even if they cannot steal Bitcoin thanks to the system's design, this introduces a trust assumption into the system.

Why these three? Each has strong brand recognition, decent liquidity and different strengths: BTC as the store-of-value, ETH with its smart contract ecosystem and XRP with fast settlement and cross-border payments. Together, they cover what businesses need: trust, functionality and speed.

"To be honest, I don't think this dump has anything to do with Justin Sun. He barely moved funds to centralized exchanges, and this morning's transfers were just from one of his addresses to another," he said. "His latest statement saying he has nothing to do with the dump looks legitimate."

XAI's Grok 4 managed to accurately time the market's local bottom before the recovery rally.

"We have been reviewing the entire portfolio from first principals to evaluate AI suitability and have identified Georgia as a strategic region for both potential conversion as well as expansion," wrote Scott Garrison, chief development officer and executive vice president at ClearSpark, adding:

The continued outflows come amid growing political unrest in the US. On Sunday, as the US government shutdown entered its 18th day, nationwide "No Kings" demonstrations accused the Trump administration of sliding toward authoritarianism.
