Blockchair is a multichain blockchain explorer that goes beyond Ethereum. It offers support for major networks such as Bitcoin, Dogecoin and more. Its advanced filtering and data export tools make it especially useful for researchers, analysts and organizations that need detailed blockchain insights.

Chart patterns are shapes formed by price movements that help traders anticipate future market trends. These patterns fall into two main categories: reversal patterns, which signal that a current trend may change direction, and continuation patterns, which suggest the trend will likely resume after a brief pause. They stem from market psychology, where emotions like fear, greed and uncertainty drive collective trading behavior and create recognizable shapes on charts.

Kobayashi's first major round of Bitcoin sales took place between September 2017 and March 2018, with blockchain data indicating that the largest offloading occurred on Feb. 6. By mid-March, Mt. Gox's Bitcoin holdings had fallen to around 166,000, after Kobayashi disclosed the sale of 35,841 BTC for 38 billion Japanese yen (about \$360 million at the time).

This isn't a zero-sum fight between corporate and permissionless chains. They'll likely complement each other. Corporate L1s will handle the compliant, large-volume flows that bring in conservative capital, while permissionless chains will keep pushing the boundaries, generating the innovation that the corporations will eventually adopt.

In the past week, though, Metaplanet has faced headwinds. On Monday, the company's shareholders approved an \$884 million capital raising proposal, although the firm's stock dropped 60% since mid-June.

The meme coin group has been gloating online about the attention their marketing gimmicks have been receiving, encouraging each other to share and repost any mention of their stunts in the hopes of getting more people to buy their token.
