## Comprehensive Guide to binance leverage interest rate

Over the past 12 years, September has been a down month for Bitcoin eight times. But the past three years, the crimson shifted to August, and September was green.

This technological progress has fueled the continued adoption of stablecoins, fiat-pegged digital tokens that can move across the internet without relying on traditional payment rails. The report cited \$9 trillion in stablecoin transactions over the past 12 months — an 87% increase from the previous year.

Bitcoin and other decentralized protocols suffer from a collective action problem, where the communities choose to debate theoretical solutions, rather than

implement known workarounds as soon as possible, Carvalho added.

The most significant breakthroughs in DeFi happened because anyone could plug into anyone else's contracts without asking permission. That's harder to do in a corporate-controlled L1 with guardrails. If you can offer true composability, you'll attract the builders they can't.

The pattern reflects sustained investor confidence amid geopolitical and monetary uncertainty, the very conditions HSBC says will keep the rally alive into 2026.

Miners have often had to sell coins or branch into different industries—like high-performance computing for artificial intelligence—to cover operational costs.
