Crypto adoption in European countries like the United Kingdom and Germany is lagging behind Russia, according to the latest report from US blockchain analytics firm Chainalysis.

"The conventional wisdom was that the SEC was only going to allow 2X leverage going forward, but these filings suggest that it may be willing to allow more volatile products to hit the market," Roy wrote. "If they launch, these would be extremely risky funds designed for the most aggressive short-term traders."

And last month, only one in four of the 1,900 investors polled by Binance Australia estimated that Bitcoin will top \$150,000 in the next six months.
