Comprehensive Guide to binance nft meaning

App-specific layer-1 chains that must build out their own validator set suffer from centralization issues and could face increased legal liability, Mehta said.

Tether is one of the crypto industry's most profitable companies. The USDT issuer, which posted a \$13 billion profit last year, is reportedly seeking a \$500 billion valuation in talks with potential investors.

How has it worked out? During the late-2024-to-mid-2025 rally, media estimates pointed to unrealized gains of \$300 million by December 2024, rising to portfolio values north of \$700 million months later, implying hundreds of millions in profit at peak. Figures move with price, but the pattern was clear in that upswing:

Disciplined buying built a meaningful position.

In response, Bitcoin has bounced 3% over the last two days, showing a slight bullish skew and currently trades around \$110,000, CoinGecko data shows.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.

The immediate-term direction now hinges on Friday's upcoming Non-farm Payrolls report. A bullish jobs report would most likely just limit the "red September" damage, according to Dawson, rather than spark a major rally.
