the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.

Babylon Labs co-founder and Stanford University professor David Tse said on Wednesday that the company built a proof-of-concept that allows native Bitcoin to be used “trustlessly” as collateral for loans on Ethereum.

Admit it or not, software is deployed by developers and used by communities for certain purposes. And when hackers at cross purposes exploit the software to take things from those communities, some of the victims will appeal to the government for help. And sometimes those governments will respond by sending men with guns to restrain the hackers and imprison them.

Despite the short-term uncertainty over capital rotation, the overall market sentiment remains positive. “It is a very good time for the markets, and is likely going to remain that way for the short-term foreseeable future,” Le Shi, managing director at algorithmic trading and market-making firm Auros, told Decrypt in an interview during Token2049 in Singapore last week.
