Authority is the emergent product of differing capacities for violence among individuals and groups. This gradient of violence gives rise to coercion, where the possessors of violence impose rules on subjects. And code, while dictating internal rules within its own logic, has no monopoly on violence in the world writ large.

Some companies, such as BitMine, SharpLink Gaming and VivoPower, include crypto in their treasury portfolios for strategic purposes, inflation hedging or to get further involved in the cryptocurrency market.

“These protections have already proven to be successful in addressing other types of non-consensual imagery, and we’ve now built the same capabilities for fake explicit images as well,” Google said. “These efforts are designed to give people added peace of mind, especially if they’re concerned about similar content about them popping up in the future.”

If a developer deploys an immutable contract, then the moment an exploit is discovered, without a legal superstructure to support participants, the entire system will become unusable. And it is unrealistic to expect developers to develop perfect code. It is far easier and more effective to implement flexible rules that can be administered by humans (i.e., laws) than it is to imagine, beforehand, every possible risk scenario that could ever arise.

Assets associated with the infamous Libra token—launched in February, and promoted by Argentine President Javier Milei—were unfrozen by a Manhattan federal judge on Tuesday. The judge said that she no longer believes that the defendants would run off with the cash, after the pair had been compliant with court proceedings. It comes after the same U.S. district judge, Jennifer L. Rochon, froze \$57.6 million worth of USDC found in June as part of a case in which the plaintiffs are seeking over
