"We have hashing technologies, where we have the ability technologically to detect CSAM proactively," the spokesperson said. "That's something that's sort of an industry-wide standard, and we're able to block it from appearing in search."

At the start of the year, there were about \$205 billion worth of stablecoins in circulation, according to data aggregator DeFi Llama. Within the past week, the total market cap for stablecoins has surpassed \$302 billion. That kind of rapid growth will need to accelerate in the coming years to fulfill Standard Chartered's projections.
