Coinbase says the high compliance costs pose "formidable barriers to entry for smaller financial service providers, including fintech startups," and are often passed on to customers through higher banking fees and denial of financial services, particularly affecting low-income customers.

Liquidation cascades: Leveraged positions are automatically closed when margin runs short. When price hits clustered stop or liquidation levels, forced selling or buying accelerates the move. It often snaps back once excess leverage is cleared. That snapback leaves the classic bull or bear trap footprint seen repeatedly in Bitcoin
