It's unclear why World Liberty Financial would have blacklisted the wallet, identified as belonging to Sun by blockchain analytics platforms Arkham and Nansen, for transferring tokens. But it is possible that early investors, like Sun or the Tron DAO, would have received token warrants that prohibit them from selling for a set amount of time.

"We have seen crypto firms react positively to our financial promotions rules and regulations; however, where we still see poor practices, we will not hesitate to take action where firms appear to be breaching our rules."
