The referral system also proved to be a growth driver, with 25,212 new users brought into the Algorand ecosystem through invitations from friends. By the end of the week, 4,215 participants had successfully completed all the required quests

and claimed their non-fungible token (NFT) badges.

“It remains unclear how the Bitcoin came to be in U.S. custody,” on-chain intelligence firm Elliptic recently concluded. “It’s also unclear who ‘stole’ the bitcoins from Chen/LuBian or whether a theft really took place.”

Catalyst windows can also distort price action. Listings and token unlocks may temporarily overwhelm shallow market depth, especially in illiquid altcoins. This can produce sharp “breaks” that often reverse once order flow normalizes. Research on market microstructure around launches and unlocks shows how depth, fragmentation and positioning can combine to create these head fakes.

Some of the largest Bitcoin miners have announced similar strategic pivots to AI since the beginning of 2024, including Core Scientific, Hut 8 and Iris Energy.
