This technological progress has fueled the continued adoption of stablecoins, fiat-pegged digital tokens that can move across the internet without relying on traditional payment rails. The report cited \$9 trillion in stablecoin transactions over the past 12 months — an 87% increase from the previous year.

There is a clear spectrum emerging. On one end, there are fully decentralized, censorship-resistant protocols. These chains may lack the polish or compliance comfort institutions crave, but they're the crucibles where real innovation happens. Ethereum in its early days, Bitcoin still today, newer privacy chains pushing the edges of what's possible without KYC gates.

In response to an X user's question, he also agreed that in the short term the chains from large financial giants could help mainstream adoption.

With court approval, the repayment deadline was extended from Oct. 31, 2024, to Oct. 31, 2025, and the trustee urged remaining creditors to finalize their submissions through the Mt. Gox claims portal.
