While we abstract it away in our discussions, this final step, the violence, is the basic quantum of all regulation. And as long as governments have armies, and developers and hackers do not, those who believe code is law will be unable to enforce their priors on the rest of us.

He added that ETF flows could be a strong predictor of whether Bitcoin manages to escape a Red September—even if it did just see a Red August. A month (or any other period time) is considered red if an asset ends at a lower price than it started.

It currently maintains multiple connections to the sporting world, highlighted by backers like the New York Yankees-owning Steinbrenner family and current and former NHL players including Tyler Seguin, Jason Arnott, and Ales Hemsky.
