Ethereum could eventually surpass Bitcoin's market share in a similar manner to how US equities overtook gold 54 years ago, when the US abandoned the gold standard, according to BitMine chair Tom Lee.

OpenAI's foray into live web search has been long rumored, especially given the limitations of typical large-language models, which rely on a large but static corpus of data collected up to a point in time, limiting its knowledge of current events.

That cohort may be partly accounting for crypto's weekly decline, with Bitcoin dropping over 9%, Ethereum falling 6%, and XRP showing a 15% dive—with some altcoins down even worse. Crypto prices plunged last Friday following President

Trump's latest China tariffs threat, prompting a record \$19 billion worth of daily liquidations, and have ticked down further this week.

Google's experiment is verifiable, meaning that the same results can be obtained by running the experiment on any quantum computer system with the same technical specifications as the one the researchers used.

"Our investment in U.S. Triestina 1918 is about much more than football. It's about connecting Dogecoin's global community with one of Europe's most storied clubs and proving that digital assets can drive real-world value, culture, and passion," said House of Doge CEO Marco Margiotta in a statement.

ETF inflows must return and new ETH buyers must step in for the bulls to have a shot at getting back to \$5,000.
