crypto industry evolved around decentralized systems and shifting regulations. That divide is now narrowing, thanks to the launch of the first publicly traded investment vehicle dedicated to staking cryptocurrency.

The move resembles those made by Northern European countries like Norway or Sweden, Nic Puckrin, crypto analyst and co-founder of The Coin Bureau, told Decrypt. While those were not explicit bans, he said, "the removal of previous advantages essentially made mining unviable."

The first week of October delivered a strong performance for the crypto market, with Bitcoin setting record highs and the layer-1 sector leading the charge among altcoins.

Meanwhile, Turkish regulators have responded to growing adoption of crypto by expanding their watchdog powers. And the rising adoption of stablecoins in Asia has been at the center of a political stalemate in India.
