To that point, Dalio said that deregulation isn't a threat to governments' use of fiat currencies in stabilizing economies or facilitating international trade. It is rather unhealthy debt levels, he said, that are eroding the status of currencies like the greenback across several sovereigns.

Two-step rule: Wait for the retest. If the "broken" level is reclaimed and held with improving participation (volume or depth), it was likely a trap. If not, you've avoided chasing noise.

Catching a coin's name trending on X or in a Telegram chat isn't enough to justify putting capital at risk. Social buzz moves fast, and most spikes fade before price action catches up, or worse, they might be the result of coordinated shilling. That's why the next step is to turn raw noise into structured signals you can actually rank and compare.

The primary struggle for a crypto investor is not a lack of information but a relentless deluge of it. News websites, social media feeds and onchain data streams constantly churn with updates that can be overwhelming. XAI's Grok 4 aims to change that. It pulls live data straight from X, pairs it with real-time analysis and filters signals from noise. For a market that is heavily influenced by narrative momentum and community chatter, this is indeed a notable capability.

Notably, SearchGPT appears to replace Microsoft Bing with its own technology. The videos shared by OpenAI don't show the typical banner indicating that search results are powered by Bing, as with the current version of ChatGPT. And while Google has been integrating AI into its services, SearchGPT's advanced capabilities clearly pose a significant threat.

Polymarket recently reclaimed market leadership from Kalshi after trailing for eight weeks, posting \$1 billion in weekly volume against Kalshi's \$950 million.
