Comprehensive Guide to how to take my money from binance

"India is unique in its challenges," Bharwani said, noting that while there is demand for digital assets and flourishing ecosystems being built, "a lack of clarity is causing founders to move away offshore."

By Monday, Bitcoin rebounded to around \$115,000, almost erasing the weekend losses. Hougan said the rapid recovery indicates the strength of blockchain infrastructure. "The damage was contained to individual investors," he added, noting that no major institutions collapsed during the event.

The meme coin group has been gloating online about the attention their marketing gimmicks have been receiving, encouraging each other to share and repost any mention of their stunts in the hopes of getting more people to buy their token.

However, he predicts that in a few years the blockchains built by these companies will most likely be abandoned when they “cause too big a headache from a technical point of view,” and after users choose to avoid them because they aren’t attractive enough from a “DeFi/self-custody/control-my-asset point of view.”

With Mt. Gox sales off the table, Bitcoin held above \$6,000 for most of the year until November’s Bitcoin Cash hard fork rattled the market. Mt. Gox’s holdings remained steady at around 142,000 BTC during this period.
