In 2024, officials sought to address the country's debt by raising money through taxes, including a 16% sales tax on bread and 25% tax on vegetable oil. As protests broke out, some groups urged citizens to begin using crypto as a way to bypass what they saw as unfair taxation.

But here's where things get interesting: BNB has been riding a powerful parabolic support line since mid-year. The chart shows a clear parabolic advance—the kind that can deliver explosive gains but also tends to end with equally explosive corrections. Looking at the projection, if this trajectory continues uninterrupted,

BNB could be trading near \$2,000 by December 31, potentially delivering another 67% gain from current levels over the next 89 days.

U.S. Triestina 1918 plays in Serie C, Italy's third-highest division of professional soccer. The club is currently in last place, and was recently assessed an administrative penalty that deducted 13 points from its standings.

“Fast forward a few years: Corporate chains will end up with the complex tech but without the added value for users, which is no central entity to control them. At that point, these chains will lose the focus from corporates.”

Notably, SearchGPT appears to replace Microsoft Bing with its own technology. The videos shared by OpenAI don't show the typical banner indicating that search results are powered by Bing, as with the current version of ChatGPT. And while Google has been integrating AI into its services, SearchGPT's advanced capabilities clearly pose a significant threat.

If approved, the proposal will proceed through the Aave Request for Comment (ARFC) stage for community feedback, followed by a Snapshot vote and final onchain governance confirmation. Unlike short-term market interventions, the proposal aims to institutionalize buybacks as a recurring mechanism, essentially making the DAO an active capital allocator.
