However, in response, “Wall Street created products that made the dollar dominant, and the market cap of equities today is 40 trillion compared to 2 trillion for gold,” he said.

They would not provide certain benefits, though, including payments of interest on account balances or overdraft privileges. They might also impose caps on balances, in a bid to control for “various risks to the Federal Reserve and the payment system.”

The milestone is expected to redefine the protocol’s economic and technical architecture, introducing a modular “hub and spoke” design.
