“These protections have already proven to be successful in addressing other types of non-consensual imagery, and we've now built the same capabilities for fake explicit images as well,” Google said. “These efforts are designed to give people added peace of mind, especially if they're concerned about similar content about them popping up in the future.”

“The plan is really to properly and deeply integrate the LimeWire token into what we're doing with Fyre,” Zehetmayr told Decrypt. “We definitely want to do some kind of redemption for old holders of tickets as well. I think that's something where you could involve crypto or even NFTs.”

“The shift is driven by the convenience and significant tax benefits offered by ETFs, as well as the ability for major investors to manage their wealth through existing financial advisers and access broader investment/lending services,” Hiesboeck said.
