results that include the name of the person being impersonated.

“I don’t expect a broad altcoin rally like in previous cycles,” he said. “This time, growth will be likely driven by select, high-quality projects rather than the entire market moving at once.”

With Bitcoin setting a then-record price of \$67,000 in November 2021 before declining in the months thereafter, that should mean that the cycle is soon coming to an end. And some traders may be betting on that outcome.

Ongoing debasement of the currency means that all asset prices will continue to rise as investors rush to protect their purchasing power, Kobeissi Letter added.
