Android users beware: A newly discovered piece of malware is targeting smartphone crypto wallets. Uncovered by fraud prevention firm ThreatFabric, the “Crocodilus” mobile banking trojan employs tools including remote control, black screen overlays, and advanced data harvesting through accessibility logging to trick crypto holders into handing over their wallet seed phrase. The malware “is masquerading as crypto-related apps and involves specific social engineering techniques to make victims reve...

“From what we’ve seen, audiences aren’t interested in watching computer-generated content untethered from the human experience,” they said.

Hï Ibiza, named the world’s best club by DJ Mag for four consecutive years, unveiled the gallery this summer along with Ibiza-based nightlife group The Night League and London digital art collective W1 Curates. The exhibition mixes digital and physical works, interactive installations, and custom-built display technology.
