“The in-kind mechanism makes the ETF structure more tax-efficient for long-term holders by reducing the need for the fund to sell assets, thereby preventing the unwelcome distribution of capital gains to investors,” he wrote.

The agency opened a comment period in August, which closed on Tuesday.

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the

development of DApps still faces challenges such as user experience, performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.
