In a Tuesday note, analysts at investment bank Compass Point noted that Galaxy's earnings before interest and taxes came in 236% above Wall Street estimates. They added that the increase in assets on Galaxy's platform will likely cause investors to adjust forecasts higher.

Decentralized applications (DApps) are changing the way we interact with the Internet. Unlike traditional applications, DApps run on blockchain networks, do not rely on centralized servers, and feature decentralization, openness, and immutability. Currently, DApps are mainly concentrated in games, finance, social media, and other fields, providing users with brand new experiences. Although the development of DApps still faces challenges such as user experience,

performance, and scalability, with the continuous advancement of technology, we believe that DApps will become an important part of the future Internet.

“Crypto is now an alternative currency that has its supply limited, so, all things being equal, if the supply of dollar money rises and/or the demand for it falls, that would likely make crypto an attractive alternative currency,” he said.
