The team promised that Ondo will do for securities what stablecoins have done for dollars, making the tokenized assets tradeable outside of typical market hours and available worldwide.

He also cast doubt on the US government's plan to use stablecoins to protect US dollar hegemony, arguing that stablecoins are only a temporary, short-term fix that does not address the core issue, which is currency debasement.

Other users speculated that corporations might create blockchains but then hand the reins to native firms or look to acquire existing blockchains and then scale them up to purpose.

"We recently contracted for additional power and real estate in College Park to deliver high-value compute to the greater Atlanta metro area and are evaluating giga-campus opportunities across the portfolio and pipeline that are well positioned to satisfy significant off-taker demand."

Major chain retailers like Home Depot, Lowe's and Ikea accept cryptocurrency in the form of Bitrefill and BitPay gift cards, so you can use ETH to finance your home renovation.

When the usage moves beyond consumer transactions into payments infrastructure, institutional use, remittances and treasury operations, different strengths of BTC, ETH and XRP become more visible.
