"These protections have already proven to be successful in addressing other types of non-consensual imagery, and we've now built the same capabilities for fake explicit images as well," Google said. "These efforts are designed to give people added peace of mind, especially if they're concerned about similar content about

them popping up in the future.”

Many analysts believe that capital will rotate into Bitcoin, often referred to as digital gold, when the gold market cools.

The introduction of Google's AI summaries has raised huge red flags for web publishers, however, as users are less likely to visit their sites if the information is extracted and provided up front. The issue is compounded by AI's tendency to hallucinate, and even provide dangerous answers based on flawed sources.
