Each week features a new “Challenge” centered on a specific theme, such as decentralized finance (DeFi) or gaming. To complete a Challenge, users must finish a series of onchain “Quests,” which are individual tasks like swapping a token or minting an NFT on a participating decentralized application (DApp).

The data analytics platform also showed that in the last 30 days, BNB Chain’s successful transactions reached 500 million, a 151% surge from the previous 30-day period. This puts the network second to Solana, which holds the top spot for transactions.

In the letter penned by chief legal officer Paul Grewal, dated Oct. 17 and shared to X on Monday, he argued money laundering schemes have become increasingly sophisticated through the use of advanced technologies, and law enforcement needs to follow suit to counter them.

In comparison, OpenAI has reached a \$500 billion valuation to become the world's largest startup, Cointelegraph reported on Oct. 2. The company raised a cumulative \$57 billion worth of capital across 11 funding rounds, according to company database platform Tracxn.

Yarlagadda noted that crypto exchange-traded products are expected to “open new channels for investor participation through regulated, familiar structures,” citing his company’s work in building an “institutional backbone” for trading, derivatives, and credit.

If a developer deploys an immutable contract, then the moment an exploit is discovered, without a legal superstructure to support participants, the entire system will become unusable. And it is unrealistic to expect developers to develop perfect code. It is far easier and more effective to implement flexible rules that can be administered by humans (i.e., laws) than it is to imagine, beforehand, every possible risk scenario that could ever arise.
