“Gold is giving us a lesson in statistics,” he said, adding that the asset has faced even bigger drawdowns since 1971, with such corrections counting 21 times.

By using trusted custodians, a diversified network of validator partners and transparent reporting, Grayscale has established a secure and compliant way for investors to participate in staking. It has turned staking from a complex, retail-oriented process into a professional investment opportunity.

Prosecutors said Armbrust’s actions were not a “momentary lapse in judgment” but a deliberate misuse of company computing resources for personal gain, causing

real financial losses and operational disruption.

If BTC continues to follow its prior fractal, the market may enter a consolidation phase lasting several weeks. In Q1, the recovery phase extended nearly 45–55 days, forming a true bottom only in late April. Applying the same timeline suggests that a gradual recovery may not materialize until late November or early December.
