The move resembles those made by Northern European countries like Norway or Sweden, Nic Puckrin, crypto analyst and co-founder of The Coin Bureau, told Decrypt. While those were not explicit bans, he said, "the removal of previous advantages essentially made mining unviable."

What really changes?

Think tank wants a communication system

The introduction of Google's AI summaries has raised huge red flags for web publishers, however, as users are less likely to visit their sites if the information is extracted and provided up front. The issue is compounded by AI's tendency to hallucinate, and even provide dangerous answers based on flawed sources.
