Demand for spot Ethereum ETFs has also been decreasing, with these investment products posting outflows six out of the last eight days, data from SoSoValue showed.

For the average Australian wallet, Ethereum takes up roughly 33% of the cache, nearly double the global ratio of 19%. Bitcoin remains the most commonly held digital asset, with more than 36% of Australian users holding some BTC compared to about 34% globally, per Kraken's findings.

Digital wallets are essential tools for entering the blockchain world. They are not only used to store cryptocurrencies but also to manage users' digital identities and interact with DApps. According to different storage methods, digital wallets can be divided into hardware wallets, software wallets, and paper wallets. Among them, hardware wallets have the highest security but are less convenient to use; software wallets (including desktop wallets, mobile wallets, and web wallets) are convenient to use but have relatively lower security. Choosing a suitable digital wallet requires balancing security and convenience according to individual needs and asset scale.

The stablecoin has been criticized by the European Union for being used as a tool for sanction evasion by Russia. The US government has also linked A7A5 to Grinex, the successor of Garantex, which was allegedly involved in money laundering and ransomware attacks with \$100 million in transactions related to illicit activities.
