Community backlash about potential conflicts of interest was significant enough that Feist and Drake both abandoned the advisor positions.

A significant share of that exposure comes from Tether, the market leader, which holds roughly \$127 billion worth of Treasury bills.

Blockchain finance is reshaping the traditional financial ecosystem. Through blockchain technology, financial services can achieve decentralization and disintermediation, reduce transaction costs, and improve efficiency. Currently, the main applications of blockchain finance include cross-border payments, digital currencies, decentralized exchanges (DEXs), lending platforms, etc. Compared with traditional finance, blockchain finance has higher transparency and lower entry barriers, providing new possibilities for the development of inclusive finance. However, the development of blockchain finance also faces challenges such as regulatory uncertainty and technical risks, requiring a balance between innovation and regulation.
