Trading volumes jumped 140% from the previous quarter, fueled by increased spot and derivatives volumes. The quarter included the execution of a major client transaction involving the sale of more than 80,000 Bitcoin (BTC) — one of the largest crypto trades to date.

The critical question for investors is whether this Bitcoin-centric rally marks the end of the much-anticipated "altcoin season or alt season," a period during which altcoins dramatically outperform.

By contrast, Grok's strong performance implies that a powerful, general-purpose AI may be capable of successfully navigating markets on its own—a potentially disruptive development for the entire industry.

Similarly, the Coinbase app now ranks 29th in the US App Store within the finance category, a significant drop from its third-place position in January, according to data from The Block.
