The character, developed by comedian and technologist Eline Van der Velden—who spun off Xicoia from her production company Particle6—was unveiled last week at the Zurich Summit during the Zurich Film Festival in Switzerland, and immediately drew online attention. Van der Velden said multiple talent agents are already interested in signing the artificial personality.

New York lawmakers launched a legislative strike against crypto mining Friday, introducing companion legislation to a Senate bill that would force proof-of-work miners to pay high taxes based on their electricity consumption.

While some market observers believe that the traditional crypto four-year cycle is about to be broken, analysts told Decrypt this week that they believe some traders are still following the classic rulebook—and selling due to the expectation of falling prices ahead.

The product features institutional-grade security protocols, with Coinbase transferring Bitcoin from trading wallets into segregated, offline cold storage by day's end.

Prosecutors said Armbrust's actions were not a “momentary lapse in judgment” but a deliberate misuse of company computing resources for personal gain, causing real financial losses and operational disruption.
