For analyst Alex Wacy, gold's pullback is similar to its 2020 peak that coincided with a local Bitcoin bottom. The question now is whether gold will once again mark the bullish reversal for BTC.

He added that ETF flows could be a strong predictor of whether Bitcoin manages to escape a Red September—even if it did just see a Red August. A month (or any other period time) is considered red if an asset ends at a lower price than it started.

U.S. Triestina 1918 plays in Serie C, Italy's third-highest division of professional soccer. The club is currently in last place, and was recently assessed an administrative penalty that deducted 13 points from its standings.

"I think that most fiat currencies, especially those with large debts, will have problems being effective storeholds of wealth and will go down in value relative to hard currencies," he said, pointing to parallels between the coming years and two periods in the 20th century.
